

**EYCE's is an international non-profit organization and a strong network of young Christians from all over Europe who seek unity between Christians and are engaged in the work for justice, peace & the integrity of creation.**

**EYCE is involved in organizing several Campaigns to promote these values among young people.**

## WHAT CAN YOU DO?

Explore and try getting to know more about what is happening around the world through our actions:

### Local visits

During each year of the campaign you have the opportunity to be involved in a local level activities with several workshops.

Take part, build networks and learn something new. Each year there will be an EYCE-Training course accompanying that years Campaign-focus.

### International Training Courses

### Online Magazine

Would you like to know, what is happening in the Campaign? You will have the opportunity to be informed about it reading the online magazine as well as being part of it sharing comments and ideas about the discussed topics.

Be involved personally! We will organize small scale activities such as Facebook campaigns, contests or street actions etc. on specific days related to the theme of the campaign (e.g. World Migrants Day – 18th December).

### Thematic Days

As EYCE's Campaign Coordination Team we are focusing on the main issues that societies are tackling.

The Campaign #WeAreEurope! in specific is focusing on migration as well as European identity.

## WHAT ARE WE DOING?

Time and eras are changing in a natural way in the story of the world. We want to be part of the change of building a Europe, where the values of tolerance and inclusion are respected. The Campaign Coordination Team is working to raise awareness on "European identity" and "migration".

The main goal of the Campaign is to create constructive ideas and ways to conceive migration as a natural phenomenon as well as the perspective that Europe should not be a hostile place to reside for anybody.

**The campaign will last  
from 2017 to 2019  
and will have a specific  
thematic focus each year**

**2017**

*Theology of Migration:*

What is our comprehension of migration as Christians and especially as people caring about living together with the values of tolerance and peace as inspiration.

**2018**

*Models of Integration and development of European Identity and Values:*

How can we, as Europeans, deal with cultural differences among immigrants and approaches of European countries in receiving immigrants. How can we "build" the idea of "being Europe together"?

**2019**

*Role of Youth Organizations in process of integration:*

What is the role of young people in this phenomenon?  
How can the young generation deal with stereotypes and prejudices?

Now is our time to act and to deconstruct old and "static" ideas!
